front wheel bearing quality | Impala Forums Oct 27, 2017 — The wheel bearings haven't gotten noisy or loose. I used to be a huge fan of AC-Delco parts, but I feel their quality has gone downhill over recent years. One was in a box labelled Made in China and one Made in Korea Think I have a bad wheel bearing. Moog or Timken I always thought Moog made the better suspension/steering parts and I went and bought the ac Delco Oem wheel hub assemblies and they
